

Dream Categories Template for Educators

A Dream for Every Night is divided into twenty-four 'Dream Categories.'

On the following pages, you will find a template of 'Category Clouds,' one for each Dream Category, which can be used in several ways.

Some suggestions being -

- Place the Category Clouds in a hat and choose a student to select a Dream Category for the day's rest time. The educator (or another student) can then select the dream from that category in the book.
- Incorporate the Category Clouds into a visual display.
- Discussion Prompts:
 - What other Dream Categories can you think of?
 - Select a category and make up your own dream. Share your dream to the group or draw your dream.

I truly hope *A Dream for Every Night* brings moments of magic to your special spaces and restful and contented smiles to your young people's faces.

With kindness,

Angela Casabene
